

## Pravallika Palanki

(Test Analyst)

Email: pravallikapalanki432@gmail.com

Mobile No: +91 8074266963

### OBJECTIVE

Seeking a professional working environment where I would utilize my inherent skills, talent and abilities for overall growth of the organization with subsequent expansion of my knowledge domain.

### SKILLS & EXPERIENCE

- Over **5+ years of experience in Software Testing** (Manual & Automation) with strong skills in **Test Planning, Execution, and Defect Management**.
- Proficient in **Selenium WebDriver** with hands-on experience in **CITS, CRAFT, and Hybrid Frameworks** using **Maven**.
- Working knowledge of **CI/CD tools** like **Jenkins, Git/GitHub, and Azure DevOps** for version control and continuous integration.
- Experience in generating test execution reports using **Extent Reports**.
- Strong understanding of **STLC**, involved in all phases including Requirement Analysis, Test Design, Execution, and Closure.
- Familiar with both **Agile** and **Waterfall** methodologies.
- Skilled in **Web application testing, System, Integration, and Regression** testing and **Desktop Application testing**.
- Experienced with test and defect management tools: **Jira, HP ALM, and Azure DevOps**.
- Strong analytical, and communication skills, with a proven ability to collaboratively with cross-functional teams.
- Adaptable, proactive, and always eager to learn and take on new challenges.

### PROFESSIONAL EXPERIENCE

- Working as Software Test Engineer (Test Analyst) at Cognizant Technology Solutions (CTS), from Nov 2019 to till.

### EDUCATIONAL QUALIFICATION

- Completed B. Tech (EEE) in Sree Venkateswara College of Engineering (SVCN), Nellore in the year 2019.

### TECHNICAL SKILLS

Testing Skills	Selenium Automation, Manual Testing, Playwright Automation, API testing, Regression Testing, Smoke Testing, System Integration Testing, Defect Retesting, Agile Testing Methodology
Automation Tools	Selenium Web driver, Playwright Java, TestNG, Maven Framework, Soap UI, Azure DevOps, Postman.
SCM	GIT, GITHUB
Ticketing Tool	JIRA, HP ALM, Azure DevOps
Programming & Scripting	JAVA
Operating Systems	Windows
Development Tools	Eclipse, CITS

## PROJECTS:

### Project # 2:

**Company** : Cognizant Technology Solutions  
**Client** : Honda Canada- Auto Finance.  
**Project Name** : Canada Loan Origination System (CLOS) & Commerce Tools.

### Project # 1:

**Company** : Cognizant Technology Solutions  
**Client** : Honda America- Auto Finance.  
**Project Name** : N-Originations, Digital Sales Platform.

## Responsibilities

### Requirement Analysis & Collaboration

- Analyzed business and functional requirements.
- Raised clarifications and followed up with Business Analysts (BA) and Development teams.
- Participated in daily/weekly status calls and defect triage meetings.

### Test Planning & Design

- Created comprehensive test scenarios including positive and negative validations.
- Reviewed test scenarios with BAs for coverage and incorporated feedback.
- Developed detailed test cases and identified corresponding test data requirements.

### Test Execution & Defect Management

- Performed System, Integration, Smoke and Regression testing on Web Applications.
- Executed manual and automated test cases.
- Logged and tracked defects in **HP ALM, JIRA** until resolution.
- Identified and executed regression test scenarios in each test cycle.

### Automation Testing

- Identified scenarios for automation and set up a Selenium-based framework.
- Developed and executed automation scripts.
- Integrated regression suite with CI/CD pipeline using **Azure DevOps**.

### API & Service Validation

- Used **SoapUI** for VIN service testing.
- Created and executed API test cases in **Postman** for DSP application submissions.

### Documentation & Reporting

- Prepared and shared daily/weekly QA status reports (test design, execution, defect metrics).
- Maintained release documentation and shared with stakeholders.
- Documented Contract Forms for all 50 U.S. states within the iDeal application.
- Created and maintained application knowledge transfer (KT) documents in the project repository.
